<input type="checkbox"/>	<input type="checkbox"/>
3	-
	Needs someone to do all shopping and errands.
<input type="checkbox"/>	UK
	- Unknown
DEFINITION:	
Identifies the physical, cognitive and mental ability of the patient to plan for, select, and purchase items from a store, even if the patient does not routinely go shopping. The prior column should describe the patient's ability <u>14 days prior to the start (or resumption) of care visit</u> . The focus for today's assessment – the "current" column – is on what the patient is <u>able</u> to do today.	
TIME POINTS ITEM(S) COMPLETED:	
Start of care - prior and current ability Resumption of care - prior and current ability Discharge from agency - not to an inpatient facility -- current ability	
RESPONSE—SPECIFIC INSTRUCTIONS:	
<ul style="list-style-type: none"> • "UK - Unknown" is an option only in the "prior" column. This response should be used only if there is no way to determine the patient's prior ability on this item. 	
ASSESSMENT STRATEGIES:	
A combined observation/interview approach with the patient or caregiver is required to determine the most accurate response for this item. Ask the patient about the ability to plan for, select, and purchase items from the store, even if these tasks are not routinely performed. How are medications, groceries, or needed medical supplies obtained? Utilize observations made during the assessment of cognitive status, ambulation, transferring, and other ADLs to assist in determining the best response to this item.
