

OASIS ITEM:
<p>(M0810) Patient Management of Equipment (includes <u>ONLY</u> oxygen, IV/infusion therapy, enteral/parenteral nutrition equipment or supplies): <u>Patient's ability</u> to set up, monitor and change equipment reliably and safely, add appropriate fluids or medication, clean/store/dispose of equipment or supplies using proper technique. (NOTE: This refers to ability, not compliance or willingness.)</p> <p><input type="checkbox"/> 0 - Patient manages all tasks related to equipment completely independently.</p> <p><input type="checkbox"/> 1 - If someone else sets up equipment (i.e., fills portable oxygen tank, provides patient with prepared solutions), patient is able to manage all other aspects of equipment.</p> <p><input type="checkbox"/> 2 - Patient requires considerable assistance from another person to manage equipment, but independently completes portions of the task.</p> <p><input type="checkbox"/> 3 - Patient is only able to monitor equipment (e.g., liter flow, fluid in bag) and must call someone else to manage the equipment.</p> <p><input type="checkbox"/> 4 - Patient is completely dependent on someone else to manage all equipment.</p> <p><input type="checkbox"/> NA - No equipment of this type used in care [If NA, go to M0825] *</p> <p>* At discharge, change M0825 to M0830.</p>
DEFINITION:
Identifies the patient's ability to set up, monitor and change equipment reliably and safely, and the amount of assistance required from another person. The focus is on what the patient is able to do, not on compliance or willingness.
TIME POINTS ITEM(S) COMPLETED:
Start of care Resumption of care Discharge from agency - not to inpatient facility
RESPONSE—SPECIFIC INSTRUCTIONS:
<ul style="list-style-type: none"> • Include only oxygen, IV infusion therapy, enteral/parenteral nutrition, and ventilator therapy equipment and supplies. • If more than one type of equipment is used, consider the equipment for which the most assistance is needed. • If "NA" is selected at discharge, clinician should be instructed to skip to M0830.
ASSESSMENT STRATEGIES:
Is any of the listed equipment used in care? (Note responses to M0250 and M0500.) If so, a combined observation/interview approach with the patient or caregiver is required to determine the most accurate response for this item. Observe the patient setting up and changing equipment. Ask the patient to describe the steps for monitoring and changing equipment if observation is not possible at the time of the home visit. Cognitive/mental status and functional assessments contribute to determining the response for this item.
